Hot water system rebate

Randwick Council is providing a rebate of \$500 for installing efficient hot water systems in houses, units and businesses¹. Hot water systems are typically the largest user of energy in homes and are great opportunities for energy reductions.

Eligibility criteria

- Only available for houses, units and businesses³ in the Randwick Local Government Area.
- Must install either an electric heat pump or a rooftop solar hot water system.
- Must replace either an electric storage, gas storage or gas instantaneous system.
- Must be a Clean Energy Council accredited hot water system.
- Limit of one per dwelling.

¹Terms and Conditions apply. ²Savings are estimates only. ³Businesses using less than 275 kWh/day only. Rebate amount cannot exceed 50% of invoice cost.
